Course Details

ALISON's free online Diploma in Web Development course is ideal for you if you've always wanted to create your own website but lacked the skills or knowledge to do so. This course explores the essential tools for Web page development including HTML, Cascading Style Sheets, and Adobe Dreamweaver. It also examines the practical steps needed to build a Web site such as registering a domain name and choosing a hosting account.

The course is ideal for both the novice and intermediate web-developer to enhance their understanding of Web development tools and techniques. On completion of the course, learners can obtain a Diploma-level qualification to enhance their skillset, CV and career prospects.

Modules and Topics Studied
